Faculty Development Centre

Post independence India has seen massive expansion of education system. Public discourse around this reflects satisfaction in terms of improved 'equity in educational opportunities' but desires much to be done regarding 'quality of education. Criticality of the competencies of the teacher in ensuring qualitative education is well established. Role expectations of the faculty are wired around teaching-learning process, assessment strategies, pedagogical content and its tools for designing learning experiences. Pandit Madan Mohan Malviya National Mission on Teachers and Teaching (PMMMNTT), an initiative of MHRD, Govt. of India, is envisaged to address comprehensively all issues related to teachers, teaching, teacher preparation and professional development. Under this scheme Faculty Development Centers (FDCs) have been established to inculcate among the teachers the motivation to promote institutional effectiveness through the development of personal, instructional, organizational and professional growth of the faculty.
