3.6.3 & 3.6.4

### 3.6.3 and 3.6.4

Department of Biochemistry organized and participated in various extension activities with a dual objective of not only sensitizing students about various social issues but also contribute to community and strengthen community participation. Students who are socially aware realize that one of their prime responsibilities is to serve the society they are a part of. Therefore, the department promotes engagement of faculty, students and staff with neighbourhood community for their holistic development and sustained community development through various activities.

Tree plantation: this is a very simple yet effective way to promote environmental awareness. Students were sensitized to protect the environment by planting trees.

Interdepartmental Cricket match competition (both for girls and boys): These activities among students make positive impact on health awareness and fitness. Playing together with other students, they learn to negotiate, communicate, manage, conflict and lead others.

Swachhta Abhiyan (ploughing): Very high level of Sensitization of students to issues of cleanliness and hygiene in neighborhood and surroundings.

Plastic eradication: Plastic is one of the most serious environmental pollution and the awareness on environment pollution and its ill effects was created among students.

The Department also organized other extension activities such as celebration of Innovation day, oath taking ceremony (for Observance of Sadbhavana Divas and Jan Andolan Campaign on COVID 19), invited talks, International Webinar, Awareness session (to awaken the entrepreneur within students) etc.

All these mentioned activities have positive impact on the students and it developed student community relationship and self confidence of students. It also helped in cultivating hidden personality of students and created awareness among students. Involvement in these extension and outreach activities the students develop critical thinking skills and time management. These activities help them to become good leaders and well mannered citizens. The department is conscious about its responsibilities for shaping students into responsible citizens of the country by making students aware of social issues through various programmes.
