The social worker organized awareness programs from time to time, such as rallies, group sessions, and nukkad-natak, to sensitize people and improve their capabilities and self-determination in order to gradually reduce their drug dependence and help them return to a normal life. During this process, social workers also focused on recreational activities to divert the minds of the targeted people for a short period of time, to find their positive interest point to keep them busy so they do not have as much time to use drugs to relieve their stress. If the targeted group is in the chronic stage, connect them to a drug re-addiction center for proper treatment. And regular interaction will assist them and their families in receiving complete treatment.

SEMINAR ANNOUNCEMENT-II

4th International Seminar
Universal Welfare and the
Eternal Philosophy of Bhagavad Gita
December 3-5, 2019

Kurukshetra University, Kurukshetra,
Haryana (India)

Theme Background

Shrimad Bhagavad-Gita forms a unique portion of the epic Mahabharata whose study has enraptured generations of men and women. Kurukshetra, the land of this great epic and the land of Gita fascinates historians, researchers, ascetics, tourists and common man alike to visit this place and sense the vibes of the eternal message of Lord Krishna. Bhagavad gita deals with the subtle and recondite details of ethics and metaphysics relating them at the same time to the most fundamental aspirations of man. This is not done by means of any abstract disquisition, but by selecting a specific situation involving a moral dilemma and pointing out how it can be overcome. This concrete mode of treatment has made its appeal universal, which led to numerous commentaries, interpretations and translations in almost all languages of the world. At the outset, Arjuna resolves to renounce the world and withdraw from the battle. He fails to realize that his decision has put the fate of righteousness at stake. At this time of utter confusion, Lord Krishna gives the message of Gita which is of utmost value for this universe. He preaches that one is bound to work for the cause of wider entity to work for no profit to oneself especially when one is in a responsible position. Thus Gita is not restricted in its application to a particular situation; its message is eternal and for universal welfare leading us not to individuality but to comprehensiveness through a deep sense of duty. In this way, its unfathomable depth spellbinds the researchers to look for deeper meanings.

Gita Jayanti has been traditionally celebrated in Kurukshetra as an important occasion that was elevated to international level through International Gita Mahotsav. The annual festivities of this occasion include many programmes associated with Gita including intellectual deliberations in the academic seminar. This is fourth seminar in the row. The earlier seminars have been attended by the galaxy of experts who shared their researches contributed with new inputs. The seminar for the year 2019 is planned with the objective(s) of sharing cross cultural works and provide platform for knowledge building. The theme for the seminar is set to reveal central idea of Bhagavad-Gita philosophy for the welfare of mankind.

The International Seminar on Universal welfare and eternal philosophy of Bhagavad-Gita is being organized by Kurukshetra University from December 3-5, 2019 as part of International Gita Mahotsav 2019. Kurukshetra University is ideally suited for debates and discussions on Bhagavad-Gita. It started in 1956 with Sanskrit department but soon grew into a multi disciplinary university and its vast expanse and extensive research base provides perfect settings for free thinking and interdisciplinary learning. This seminar on Bhagavad-Gita is being organized by the Departments: Sanskrit-Pali-Prakrit, Institute of Sanskrit and Indological Studies, Philosophy, Management, Music and Psychology with the objective of getting inputs from traditional and modern streams of knowledge. The valuable knowledge of experts shall be widely shared to make contributions towards the theme of the seminar.

Initialization of Water Conservation Campaign by Deep-Prajwalan in front of "Maa Saraswati – Goddess of Wisdom"

The campaign was pioneered by worthy Vice-Chancellor and graced by eminent guests, teaching fraternity and students of University Teaching Departments. In this campaign, C.T.M. Oath Ceremony: More than 500 people including students and teachers were sensitized towards water conservation

oath ceremony in which students, teachers, dignitaries and Hon'ble Vice-Chancellor took pledge to conserve water by inculcating practices like water-harvesting, diversified cropping patterns, afforestation in day-to-day life and conserving every single drop of water not only to fulfil present needs but also to preserve it for future.

Hon'ble Vice-Chancellor while addressing the students emphasised upon conservation of water as most important because it keeps water pure and clean and at the same time protects the environment. He elaborated the term conservation as intelligible exploitation of water so that the present need of water may be fulfilled and the potential may be left for future generation. Prof. Kailash Chandra Sharma said that the most effective way to save water is to upgrade to efficient fixtures. At the same time he also suggested ways and means to help reduce the wastage of water at homes by using adjustable toilet flappers, by installing low flush models, by taking shorter showers etc. He also focused upon the problem of misuse and wastage of water while washing cars and suggested water less car washing system.

Dean Students' Welfare, Prof. Pawan Kumar Sharma accentuated on finite resource and stressed upon conservation of water not only in regions which suffer from scarcity but even where water seems abundant because of the finite resources of water which are getting smaller every year and suggested that sustainable way of life should be adopted by us to check upon wastage not only of

water but of all the resources. He said, it is about respecting the limits of the earth's capacity to provide. We should look upon for solutions that would lead to

simpler and more self-sufficient way of living and by intellectual management of resources, we can ensure a healthy future and at the same time may reduce our impact on the environment.

Sh. Anil Yadav, C.T.M, Kurukshetra and S.D.M, Ladwa also brilliantly expressed his views on water conservation. He said that afforestation mean planting as well as caring trees till they are not grown up.

Prikshit, a student of Institute of Law as well as N.S.S Volunteer addressed five aspects of water conservation as rain water harvesting, renovation of traditional and other water bodies, reuse of water and development of structures, water-shed development and intensive afforestation and also suggested, how these fives can be achieved.

Mandeep from LLB 2nd year recited inspirational poems on water conservation and correlated it with women empowerment and considered it as a crucial step towards achieving women dignity.

The inaugural ceremony was concluded with a mass rally, which was flagged off by Hon'ble Vice-Chancellor. In this rally NSS Volunteers, students from different departments (UTD), teachers and students of University Senior Secondary Model School, programme offices, dignitaries, participants of different competitions and teaching fraternity of university participated with great

enthusiasm, chanting the slogans "JAL SHAKTI, JEEVAN SHAKTI",
"JAL HE TO JIVAN HE"

After reaching destined place a beautiful Nukkad Natak was dramatized by NSS Volunteers, sensitizing the students for intensive water conservation and afforestation. Through drama they revealed human impact on environment, how trees are exploited for selfish means, how water is wasted and warned that the day will come when these resources will be exhausted and not only the human beings, but the whole ecosystems of the earth will be destroyed.

On this occasion students as well as teachers also took pledge for Swachta in the home, society and everywhere inspiring other members of society also for doing the same. This pledge was taken on the commencement of Swachta Pakhwada also on the same date (August 1, 2019). At the conclusion of Nukkad Natak, Dean Students' Welfare distributed 150 plants to students.

In this campaign a series of competitions were chalked out to give a platform to students for thinking on the problem of water crisis and to suggest ways and means for the same.

POSTER MAKING COMPETITION

In this competition students from different teaching departments participated, out of which the excellent performance was of students of Fine Arts department. Sharma awarded students with certificates and plants.

This competition was again an initiative to spread awareness regarding importance of water and plants. To show the importance of water in every one's life a maximum number of slogans were prepared by students of different teaching departments with the idea to spread these messages to maximum people so that they can also join us in this campaign to save water for those who are facing its scarcity. This competition was adjudged by Dr. R. S. Pathania and Dr. Minakshi Suhag from University Teaching Department. To encourage the students, Dean Students' Welfare, Prof. Pawan K. Sharma awarded students with certificates and plants.

Students gave brilliant presentations in English, Hindi and Punjabi language. Most of the students considered population increase, industrial expansion and outdated agricultural practices responsible for water scarcity. The competition was adjudged by Dr. Sushila Chauhan and Dr. Neeraj Batish.

About
National Service Scheme
(NSS)

Overview

The Ministry of Youth Affairs & Sports functioned under the overall guidance of the Minister of State (Independent Charge) for Youth Affairs & Sports during the year. In April, 2008, two separate Departments, namely, Department of Youth Affairs and Department of Sports, were created under the Ministry, each Department under the charge of a Secretary to the Government of India.

About Youth Department

The Ministry of Youth Affairs & Sports was initially set up as the Department of Sports in 1982 at the time of organization of the IX Asian Games in New Delhi . Its name was changed to the Department of Youth affairs & sports during celebration of the International Youth Year, 1985. It became a Ministry on 27th May,2000. Subsequently, the Ministry has been bifurcated in Deptt. of Youth Affairs and Deptt. of Sports under two separate Secretaries w.e.f. 30th April,2008. The specific subjects being dealt with by these two Departments are contained in the Order of the Govt. of India (Allocation of Business) Rules, 1961.

The Youth, i.e. those falling within the age group of 15-29 years constitutes nearly 40% of the total population of India. This group which is the most vibrant and dynamic segment of the country's population constitutes potentially its most valuable human resource. To optimally tap their constructive and creative energies, the Department pursues the twin objectives of personality building and nation building, i.e. developing the personality of youth and involving them in various nation-building activities. As most of the issues concerning young people are the functions of other Ministries/Departments, like Education, Employment & Training, Health and Family Welfare, etc. the role of the Ministry of Youth Affairs & Sports is to act as a facilitator and catalytic agent.

National Service Scheme (NSS)

An Introduction

In India, the idea of involving students in the task of national service dates back to the times of Mahatma Gandhi, the father of the nation. The central theme which he tried to impress upon his student audience time and again, was that they should always keep before them, their social responsibility. The first duty of the students should be, not to treat their period of study as one of the opportunities for indulgence in intellectual luxury, but for preparing themselves for final dedication in the service of those who provided the sinews of the nation with the national goods & services so essential to society. Advising them to form a living contact with the community in whose midst their institution is located, he suggested that instead of undertaking academic research about economic and social disability, the students should do "something positive so that the life of the villagers might be raised to a higher material and moral level".

Year	Important developments in NSS
Post-Independence era	<ul style="list-style-type: none"> - an urge for introducing social service for students, - The University Grants Commission headed by Dr. Radhakrishnan recommended introduction of national service in the academic institutions on a voluntary basis.

Coverage of NSS:

Started initially in 37 universities involving 40,000 volunteers, the scheme has grown over the years and it is implemented today with an involvement of more than 3.8 million volunteers spread over in 396 Universities, Polytechnics and 47 Councils of +2 level. The efforts of NSS volunteers have been widely acclaimed by the community, universities, colleges and general public as the NSS volunteers have been rendering selfless service to the community.

Motto of NSS:

The Motto of NSS "**Not Me But You**", reflects the essence of democratic living and upholds the need for self-less service. NSS helps the students development & appreciation to other person's point of view and also show consideration towards other living beings. The philosophy of the NSS is a good doctrine in this motto, which underlines on the belief that the welfare of an individual is ultimately dependent on the welfare of the society as a whole and therefore, the NSS volunteers shall strive for the well-being of the society.

NSS Logo:

The logo for the NSS has been based on the giant Rath Wheel of the world famous Konark Sun Temple (The Black Pagoda) situated in Orissa, India. The Red & Blue colors contained in the logo motivate the NSS Volunteers to be active & energetic for the nation-building social activities. The wheel portrays the cycle of creation, preservation and release and signifies the movement in life across time and space, The wheel thus stands for continuity as well as change and implies the continuous striving of NSS for social change.

NSS Badge:

The NSS logo is embossed on the badge of NSS. The eight bars in the wheel of NSS logo represent the 24 hours of a day. The red colour indicates that the volunteer is full of young blood that is lively, active, energetic and full of high spirit. The navy blue colour indicates the cosmos of which the NSS is tiny part, ready to contribute its share for the welfare of the mankind.

NSS Logo & Badge

Regular Activities

NSS volunteers generally work in villages, slums and voluntary agencies to complete 120 hours of regular activities during an academic year. As per the fundamental principles of National Service Scheme, a volunteer is expected to remain in constant touch with the community. Hence, it is of vital importance that a particular village/slum is selected for implementation of NSS programmes. As the NSS volunteer is to live with the members of the community during the 7 days Special Camping Programme and learn from their experience during his/her tenure in NSS, the village/slum should be carefully selected for adoption by NSS unit.

He and many more peoples were indulged to make bricks gargage where the wet and dry waste separately are thrown. His Society Name earlier was "YES" but nowadays it changed to "HES". He had consulted from ayurveda specialist where he came to know that drinking while eating is like a poison. Whereas we may eat hot food after eating cold food. But we

may not eat cold food after hot eating hot food. Furthermore the call have also came to him from Canada while watching his work for the society, customer was also willing to contribute to plant trees by side of his full family. He was surprised that he got a call from Canada and then sohan lal saini asked him that why you wanna contribute here, then he replid that, No doubt country is different but our globe is same. Moreover discussion was also on YAM which is natural law that is for maintaing self growth. NIYAM is what who controls YAM that is for maintaining the society laws. Later after lunch all the volunteers went to Gurukul fields to see the concept of Sustainable farming, zero budget or organic farming, where Mr. Shamshar Singh delivered lecture on Natural farming and guided volunteers during field tour about chemical free farming and their benefits in future. The difference between organic farming and non organic farming can be easily identified. Field visits motivated volunteers to guide not only farmers but also people around to adopt organic farming. He enlighten his speech by telling that the most of farming is done within Haryana and Punjab in which chemical, pesticides & DAP are used. . He focused on producing Quality products instead of increasing quantity of the crops. He also given a logical reason that why the flood is coming so frequently. (The Land by getting barren, the water inside the land goes to the sea. He has given example of "Cancer Train" of Punjab as due to excessive usage of pesticides leads to cancer. Currently gurukul is doing organinc farming in more than 180 acres. He quoted the example of Mr. Subhash Palikar who got (Padam Shree Award in Agriculture Department at the Post of ADO). In the

Beginning of their experiment, they have produced the crops at 150 acres. He had done his work in sahitya also. His 2 children were engineer but they are nowadays working at SPNP Site. The Gujarat peoples also visited the gurukul. He lived there with acharya devrath for 4 years. By watching the work of subhash palekar, the farmers also attend and visit his shivir (Camp).. He further said that on 12th March 2020, Chief minister , City council, and another VIP are also coming. They have to compulsorily attend 6 days camp for getting what they are doing. With the help of 100 Cows urine and Gobar & also other Natural Resources the crops are being produced. With the help of 1 gram gobar, the 300 crores suksham jeev are born. From 1st April to 5th April they will organize a camp that about how and how much to grow the crops. For attending camp they have to register under DDA so that the money of the village should remain inside the village only. Earlier barter system was there in the village where wheat was exchanged with any other thing. However we are now incurring more cost for producing crops comparison to earlier time. Nirmala Sitaraman will rebate electricity bill if the farmer is getting indulged in producing organic crops.

He asked the volunteers whose parents are in farming profession then he further indulged in his speech by saying that you have to encourage the parents for the organic farming. He also said that the khaad is being ready in 3 days and they have to use it within 10 days. Their products are fair enough in cost. But students used to ask many questions about it then he further gotta know to the students that the farmers know how to produce the crops but the don't know how to sell it..

In Bombay the Anil Ambani Family has its own 4 acres land on which organic food items are grown which is good for their health. Furthermore the Dehradun Central Govt Agency had also given the gurukul a certification for their embarrassing work. Students also saw at gurukul a tree which was containing uncountable nests inside it there were many colourful Birds that was really the best moment ever saw by all of us which was containing a beautiful surroundings.

While visiting to the farm house, there were number of crops like black wheat (demolish cancer) , and hira moti (which reduces suger) Carrat, radish , tea leaves etc. which were grown at a place of price ₹200 each per kg. ... As such volunteer got the knowledge that how the crops should be grown. also if we are making the crop grow of sugercane then even after cutting that crop 3 times we may continue to have that crop 4th time also. The Sugercane is grown more in the area of Maharashtra because of the hot climate. They (Gurukul peoples) are producing the organic crops from 5 years and also chemical crops are from 3 years. If we

grow organic crops then the small herbs are coming more in comparison to chemical one crops.

Day 6 (12 February, 2020)

At 7.30 in the morning Yoga and Prayer session was held in which all the volunteers performed various exercises and yoga followed by devotional prayers. After that NSS song was performed. This session continued for one hour.

In morning session Swachhta Abhiyan started in which all the four units were scattered throughout the village for cleaning. Small group were made and after that they performing various activities like started picking all the garbage, road cleaning, draining all the waste material, during these activities, villagers themselves motivated the volunteers by providing them extra equipments, offering them milk and water. Volunteers planted 40 plants all over the main area also made boundaries with bricks to protect it. Volunteers actively participated in beautification of the village.

After lunch, special lecture was delivered by Dr. Sanjeev Arora from Chemistry Department, Kurukshetra University, Kurukshetra. He talked about 7 types of plastic, know your plastic and Plastic reuse. Another interesting topic he talked about is Scientific logics behind old myths. Sanjeev Arora (Lecturer in Dept. Of Chemistry) (PHD) came & said the students that he had done his work on polymer composition. He further elaborated about various types of polythene like : macromolecule which contain highest *Ethene*. He have given a thought of mindset that how to know your plastic. *First of all,* we come to know about the plastic that which plastic polythene contains through *Resix Index Coding (RIC)* .

He introduced about 7 types of plastic:

- 1). PET (contain 1no. Downside the plastic bottle)
- 2). High Density Polythene (eg. thick polythene)
- 3).PBC (Rug Plastic like : Pipe, bottle cap, another strong plastic).
- 4).Low Density Polythene (thin polythene)
- 5).Poly Proplene (PP) : The plastic which can't be crushed
- 6).Sterophome (eg. Thermocoal).. In which we usually drink tea.
- 7).Polycarbonate (Another rest plastics).

There are various kinds of *polythene*:

- 1).Black polythene: It is Recycled already 4-5 times. And given a colour of black. We have to use this to through waste in dustbin

2).Green , Blue, Red polythene: It is Recycled already 1 time.

3).White polythene: It is not recycled.

Furthermore he told NSS Volunteers that sachet was developed in 1970. He said that shampoo and other products which are coming in the form of *pouch* will be banned in 2021. Because it causes sea water blocked. He awared the students about corona virus. Where in that area who has virus inside him and other person even sneeze near that area (the other person will also have the same disease). Near about 1Crore and 25 lakh (approx) peoples live in China. In 2050, the fishes in the sea will remain half in comparison to nowadays. We have to use less polythene & also need to tell this thing to others so that everyone may be aware. Instead of taking polythene from seller, we have to take a cloth bag. More than 25 Microns bag is not used in the India. Steel bottle, copper bottle, & glass bottle have to be used instead of plastic bottles. Thermo coal plates causes cancer. Thermocoal cup in which we usually drink hot tea is very bad for our health but if we drink cold drink then it just cause an effect to environment and *not to human health*. The Dress which an Indian cricket team wears are make from number 1 plastic. In the India, in a day , 1 crore straws are used.

He also introduced the scientific idea about the myth...

1. When Cat cross our way when we are going anywhere.. We need to turn round in 360° angle.

Later, innovative idea “Self Defense for women” was launched. The session was conducted with the support and guidance of S.P. Astha Modi. ASI Taro Devi along with Head Constable Balveer Kaur and Parveen Devi, Nirmala Devi. They taught about self defense techniques, Durga Shakti App and ways to keep oneself safe i.e. paper spray, shouting, kicking between the legs, punching on nose, hitting in eyes.

In the end Nukkad Natak was performed on the theme of Plastic and it's hazard to environment with the message of Say No To Plastic. The play was highly appreciated by the the villagers and they agreed to reduce less plastic. Shefali from Department of Hindi recited Rashmi Rathi.

Subject: Report on distribution of ration items for the needy labourers and other people in and around the University.

In view of COVID-19 pandemic, many people got stuck at various places of the country. Many of the poor labourers/other people, who were dependent upon their daily/weekly earnings for supporting their families, were under duress due to lockdown. Honourable Prime Minister of India as well as Chief Minister, Haryana has urged one and all to support such families in this hour of need.

The Youth Red Cross (YRC) Unit of the University is a part of Indian Red Cross Society with a motto of "Service to Society". Indian Red Cross Society, Haryana State Branch vide its letter No.YRC/H/2020/8592-8605 dated 29.03.2020 requested all the YRC units to make all efforts to provide assistance to the poor and needy people by distribution of food items, disposable masks, food and shelter to the labourers and other needy people.

In this connection, it came to notice that there are many labourers who were involved in construction work on the University campus. Now, due to lockdown these people were not able to work and got stuck at the construction sites. There were also some other persons such as some rickshaw pullers, mess workers (contract), etc. in a similar situation. Without having money they were not able to purchase food and other necessary items for their families.

Understanding the social responsibility of the Kurukshetra University and in light of the above mentioned letter and under the able guidance of worthy Vice-Chancellor it was planned to help the labourers and other needy people on the campus. It was estimated that nearly 100 labourer families and needy peoples are present on the University campus who have come here from the other districts or states and need to be helped.

During discussion with worthy Vice-Chancellor it was suggested that keeping in view the health and hygiene of the beneficiaries (stranded labourers (100), security persons (295), sanitary and horticulture workers (340) in jurisdiction of Kurukshetra University campus) gamchas should also be distributed. Therefore a separate approval was taken for the purchase of gamchas (735 nos.) and masks (200 nos along with ration kits). Gamchas (735 nos.) for an amount of

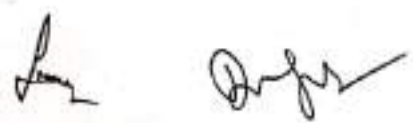

Rs. 1,10,360/- and masks (200 nos) for an amount of Rs. 1200/- were also purchased out of Youth Red Cross (Colleges) funds for distribution among the beneficiaries to keep themselves safe in the day to day working conditions in the campus.

The locations were identified with the help of construction branch in the University where construction works were going on. Dr. Neeta Khanna worthy Vice-Chancellor Kurukshetra University gave her kind consent to distribute the Rashan kits to the needy persons. On 14th May, 2020 the Rashan kits were distributed by worthy Vice-chancellor Dr. Neeta Khanna to the construction workers and other needy people in the campus. She visited the construction sites and personally distributed the kits. The labourers (100 families) were provided food packets of ration items sufficient for one month containing wheat flour (10 kg), permal rice (5kg), salt (1kg), sugar (2kg), mustard oil (1ltr.), dal channa, kalla channa & urad chilka dal (1kg each), chai patti (250gm), turmeric (200gm), chilli powder (100gm), cumin seeds (100gm), and soap (1 pc.). An amount of Rs. 1,25,500/- was incurred out of Youth Red Cross (Colleges) Funds. 100 gamchas and 200 masks were also distributed among these families.

On this occasion Dean Academic Affairs Prof. Manjula Chaudhary, the then Dean Students' Welfare Prof. Pawan Sharma, XEN Sh. Prithvi Singh, Chief Security Officer Dr. C. R. Jilowa, Deputy Director Public Relation Dr. Deepak Rai and other officials accompanied the Vice-Chancellor.

During Rashan kits distribution all the guidelines of Centre and State Government were followed i.e. social distancing was maintained & masks were used by all. On this occasion YRC volunteers Shrey, Pankaj and Sushant along with Programme Counsellors Dr. Vanita Dhingra and Dr. Sukhbir Lal Khokra were also present.

In the sound event, remaining 635 gamchas were distributed to security personals, malis, sanitation staff and other personals involved in essential services of the University. Out of these 295 gamchas were distributed among security persons and 340 gamchas were distributed to sanitation staff, malis and other persons. At this occasion, Hon'ble Vice-Chancellor Dr. Neeta Khanna distributed gamchas to these persons. Prof. Manjula Chaudhary, Dean academic Affairs; Prof. Anil Kumar Vashisth,

Dean Students' Welfare; Dr. Vanita Dhingra, Programme Counsellor, YRC; Dr. C.R. Jilowa, Chief Security Officer; Dr. Narender Singh, Incharge, Horticulture and Sanitation; Prof. Brijesh Sawhney, Director Public Relations; Dr. Deepak Rai, Dy. Director Public Relations and Dr. C.C. Tripathi, Dean, Faculty of Engg. & Technology were also present.

A total expenditure of Rs. 2,37,060/- (Rs. 1,25,500/- + Rs. 1,10,360/- + Rs. 1200/-) was incurred to meet out of Youth Red Cross (Colleges) funds.
