Department of Science & Technology
Government of India

NRDMS-DST Summer School on Geospatial Technologies

Certificate

Registration Number: 2019KUUJUH.100678

This is to certify that Mr. **Shamsheer Singh** has successfully completed the 'NRDMS-DST Summer School on Geospatial Technologies (Level 1) conducted from **27 May to 16 June** by **Department of Geography, Kurukshetra University** and supported by Natural Resources Data Management System-Department of Science and Technology, Government of India, New Delhi. He has secured **A/B/C** grade.

Prof. Mehtab Singh
Department of Science and Technology
Government of India, New Delhi

Prof. Rajeshwari
Coordinator
Department of Geography,
Kurukshetra University

Prof. Manjula Chaudhary
Dean, Academic affairs
Kurukshetra University,
Kurukshetra

This Summer school has a multidisciplinary nature and is equivalent to a refresher course being conducted by other Government Agencies

NRDMS-DST Summer School on Geospatial Technologies

Certificate

Registration Number: 2019KUUKUJHL100682

This is to certify that **Mr. Bhim Singh** has successfully completed the 'NRDMS-DST Summer School on Geospatial Technologies (Level 1) conducted from **27 May to 16 June** by **Department of Geography, Kurukshetra University** and supported by Natural Resources Data Management System-Department of Science and Technology, Government of India, New Delhi. He has secured **A/B/C** grade.

Prof. Mehtab Singh
Representative
Department of Science and Technology
Government of India, New Delhi

Prof. Rajeshwari
Coordinator
Department of Geography,
Kurukshetra University

Prof. Manjula Chaudhary
Dean, Academic affairs
Kurukshetra University,
Kurukshetra

This Summer school has a multidisciplinary nature and is equivalent to a refresher course being conducted by other Government Agencies

NRDMS-DST Summer School on Geospatial Technologies

Certificate

Registration Number: 2019KUJUKUHL100672

This is to certify that Mr. **Pankaj** has successfully completed the 'NRDMS-DST Summer School on Geospatial Technologies (Level 1)' conducted from **27 May to 16 June** by **Department of Geography, Kurukshetra University** and supported by Natural Resources Data Management System-Department of Science and Technology, Government of India, New Delhi. He has secured **A/B/C** grade.

Prof. Mehtab Singh

NATIONAL INSTITUTE OF TECHNOLOGY KURUKSHETRA

One Week Short Term Course on
Strengthening Capacities
for
Hazardous and Disaster Risk Management
(SCHDRM-2018)

May 1-6, 2018

Certificate of Participation

This is to certify that Prof./Dr./Mr./Ms. Pankaj Bhardwaj

of Department of Geography, KU, Kurukshetra

attended one week short term course on *Strengthening Capacities for Hazardous and Disaster Risk Management*

(SCHDRM-2018) organised by Civil Engineering Department, National Institute of Technology Kurukshetra.

Coordinators

Convener

Elite

NPTEL Online Certification

(Funded by the Ministry of HRD, Govt. of India)

This certificate is awarded to

AMRISH SAINI

for successfully completing the course

Global Navigation Satellite Systems and Applications

with a consolidated score of **78** %

Online Assignments	25.00/25	Proctored Exam	52.5/75
--------------------	----------	----------------	---------

Total number of candidates certified in this course: **191**

Prof. V. C. Srivastava
Coordinator, Continuing Education Centre
IIT Roorkee

Jul-Aug 2019
(4 week course)

Prof. Inderdeep Singh
NPTEL Coordinator
IIT Roorkee

Indian Institute of Technology Roorkee

Roll No:NPTEL19CE45S21950018

To AMRISH SAINI
A-11, SARASWATIPURAM, HAZARI BAGH
KANKHAL
HARIDWAR
UTTARAKHAND
249408
PH. NO :9105875956

Duration of NPTEL course: 4 Weeks

No. of weeks of NPTEL Courses	Equivalence of NPTEL course with regular FDP
4	$\frac{1}{2}$ FDP of one week
8	Full FDP of one week
12	$1\frac{1}{2}$ FDP

NPTEL-AICTE Faculty Development Programme

(Funded by the Ministry of HRD, Govt. of India)

This certificate is awarded to

AMRISH SAINI

for successfully completing the course

**Global Navigation Satellite Systems and
Applications**

with a consolidated score of **78 %**

Prof. Andrew Thangaraj
NPTEL Coordinator
IIT Madras

(Jul-Aug 2019)

Prof. Dileep N. Malkhede
Advisor-I (Research, Institute & Faculty Development)
All India Council for Technical Education

Roll No: NPTEL19CE45S21950018

To validate and check scores: <http://npTEL.ac.in/noc>

The candidate has studied the above course through MOOCs mode, has submitted online assignments and passed proctored exams.
This certificate is therefore acceptable for promotions under CAS as per AICTE notifications dated 24th July 2018, similar to other refresher / orientation courses.

ACKNOWLEDGMENTS

I feel privileged to acknowledge my gratitude to all those who have contributed directly or indirectly in the completion of this research work. I am grateful to my supervisor Professor Ram Niwas for the precious guidance, continuous encouragement and kindness during this intellectual journey.

I express my thanks to the members of faculty, the Department of English, K.U.K. for their cooperation and encouragement. I particularly thanks Prof. S.S. Rehal, Chairman, Department of English, Prof. Brajesh Sawhney, Prof. Sunita Siroha, Prof. Rashmi Verma, and Dr. Vikram Kharb for their support.

Next, I am greatly indebted to, Prof. S.L.Paul and Prof. Dinesh Kumar, both former Professors, Department of English, K.U.K., Prof. Ravi Bhushan, Department of English, Khanpur University, Prof. Sushama Sharma, former Prof. Department of Education, K.U.K., and my friend Parshant Kumar, Assistant Prof. Govt. College Bhrrian, Pehowa for the discussion of my topic.

I express my thankfulness for the staff of Jawahar Lal Nehru Library and the Department Library K.U.K., The British Library, New Delhi, Delhi University Library, Jawahar Lal Nehru University Library New Delhi, Jamia Milia Islamia University Library New Delhi, Sahitay Academy Library, New Delhi, P.U. Library, Chandigarh, M.D.U. Library, Rohtak for the valuable research material provided by them.

I have no words to express my gratitude to my parents Sh. Ram Dhan and Kamlesh Devi, my brothers Narender Sharma and Ranbir Sharma for the emotional support they provided me. Words fall short to express my appreciation for my wife Monalisha who has always stood by me unconditionally.

ACKNOWLEDGEMENTS

I feel privileged to acknowledge my gratitude to my supervisor Dr. Brajesh Sawhney, Professor, Department of English, Kurukshetra University, Kurukshetra for his precious guidance and continuous encouragement during this intellectual journey. He has always been there to help me like a guardian at all the junctures of this pursuit. Here, I cannot proceed without expressing my gratitude to Prof. S.S. Rehal, Chairman, Department of English, Kurukshetra University, Kurukshetra. I also wish to convey my heart-felt gratitude to Prof. Sunita Siroha, Prof. Rashmi Verma and Prof. Ram Niwas, for their invaluable suggestions.

I owe my indebtedness to the members of Jawaharlal Nehru Library at Kurukshetra University, Kurukshetra, The American Library, New Delhi, Jawaharlal Nehru University Library, New Delhi, Delhi University Library, New Delhi, Punjab University Library, Chandigarh, Punjabi University Library, Patiala and Osmania University Library, Hyderabad, for the valuable research material provided by them.

I have no words to express my gratitude to my parents Sh. Sohan Lal Verma and Smt. Santosh Verma and my in-laws for their continuous support. I am thankful to my husband Mr. Sachin Verma, who has always stood by me during the ups and down of my intellectual journey. Words fall short to express my appreciation for my son, Jagrit Verma, whose unconditional love has always cherished me in hard times. Last but not least, I bow my head in thanks and prayers to Almighty God without whose blessings it would not have been possible to accomplish this task.

ACKNOWLEDGEMENT

Gratitude is the fairest blossom which springs from the soul. This dissertation would not have been possible without the guidance and the help of several individuals who in one way or another contributed and extended their valuable assistance in the preparation and completion of this study.

First and foremost, my utmost gratitude to my supervisor Dr. Sukhwinder Singh Rehal, Professor and Chairperson, Department of English, Kurukshetra University, Kurukshetra for his kind supervision, advice and guidance from the very early stage of this research to its end. Above all, he provided me unflinching encouragement and support in various ways without which it would have been impossible for me to give shape to my ideas. I also want to convey my heart-felt gratitude to Prof. Ramniwas, Prof. Sunita Saroha, Prof. Brajesh Sawhney, Prof. Rashmi Verma and Prof. Vikram Kharb for their invaluable suggestions. They have made this research work possible in the present form.

I render my sincere thanks to the staff members of Jawahar Lal Nehru Library and Department of English Library, Kurukshetra University, Kurukshetra, P.U. Chandigarh, D.U. Delhi, J.N.U. Delhi for providing me free access to their well-equipped libraries and also for their helping attitude.

I have no words to express my gratitude to my parents and in-laws who dreamt everything before me and gifted only the sweet dreams to my eyes. They provided many hours of loving childcare so that I could work peacefully. Words fail me to express my appreciation for my husband, Suren whose dedication, love and persistent confidence in me, provided me strength all through the passage of my research work. He was the pillar of strength that kept the family going while I was coping with various commitments at work, at the university and at home. I will always be indebted to him for the freedom I enjoyed as a part-time student. My child, Yashiv, deserves special mention for his inseparable support, affection, prayers and patience.

I am thankful to my colleagues Mukesh Kumari and Subhash Chand who without any selfish motive encouraged me and provided the technical support to complete my work. I am also grateful to Dr. Naresh Verma, BEO Safidon for allowing me earned leave to complete my research work. Without the inspiration, drive and support he gave me, I might not have been able to accomplish this project.

Last, but by no means least, I thank the omnipresent God for answering my prayers and for giving me the strength to complete this challenging task.

An Asymptotic-Numerical Method for a Class of Weakly Coupled System of Singularly Perturbed Convection-Diffusion Equations

ABSTRACT

A weakly coupled convection dominated system of m -equations is analyzed. A higher order accurate asymptotic-numerical method is presented. The solutions of convection dominated problem are known to exhibit multi-scale character. There exist narrow region across the boundary of the domain where the solution exhibit steep gradient. This region is termed as boundary layer region and the solution of problem is said to have a boundary layer. Outside of this region, the solution of system behaves smoothly. To capture this multi-scale nature given system is factorized into two explicit systems. The degenerate system of initial value problems (IVPs), obtained by setting $\epsilon = 0$, corresponds to the smooth solution, which lies outside of boundary layers. For solution inside boundary layers, a system of boundary value problems (BVPs) is obtained using stretching transformation. Regardless of this simple factorization, solutions of these systems preserve the key features of the given coupled system. Runge–Kutta method is used to solve the degenerate system of IVPs, whereas the system of BVPs is solved analytically. Stability and consistency of the proposed method is established. A uniform convergence of higher order is obtained. Possible extension to differential difference equations are also brought to attention. A comparative study of the present method with some state of art existing numerical schemes is carried out by means of several test problems. The results so obtained demonstrate the effectiveness and potential of present approach.

ABSTRACT

A singularly perturbed convection diffusion problem is solved numerically using finite element method based on higher order polynomials. More precisely, we introduce a modified graded mesh generated using some implicitly defined functions. Higher order parameter uniform convergence is obtained in r -weighted energy norm. Moreover, the error estimates obtained are optimal in the sense that they are free from logarithmic factor. A number of test examples are taken into account and a rigorous comparative analysis is presented. Moreover, we compare the proposed method with others found in the literature.

1. Introduction

It is well known that many phenomena in biology [1,2], chemistry [3], engineering [4,5], physics [6] can be described by boundary value problems associated with various types of ordinary and partial differential equations or systems. When we associate a mathematical model with a phenomenon, we generally try to capture what is essential, retaining the important quantities and omitting the negligible ones which involve small parameters. The model that would be obtained by maintaining the small parameters is called the perturbed model, whereas the degenerate simplified model is called unperturbed or reduced model [7]. Of course, the unperturbed model is to be preferred, because it is simpler. What matters is that it should describe faithfully enough the respective phenomenon, which means that its solution must be sufficiently close enough to the solution of the corresponding perturbed model [8]. This fact holds in the case of regular perturbations. On the other hand, in the case of singular perturbations, things get more complicated. If we refer to an initial boundary value problem, the solution of the unperturbed problem does not satisfy in general all the original boundary conditions and/or initial conditions as some of the derivatives may disappear by neglecting the small parameters [9]. Thus, some discrepancy may appear between the solution of the perturbed model and that of the corresponding reduced model [10].

Numerical discretization of singularly perturbed differential equation is burdened with difficulties; for example, finite difference method (FDM) and finite element method (FEM) necessitate a mesh to sustain approximations [11,12]. In fact, the discrete solutions obtained using standard Galerkin or centered finite differences methods demonstrate oscillatory behaviour for small discretization parameters. However, layer adapted meshes seem promising in the discretization of such equations [13]. This leads to growing interest in the generation of layer-adapted meshes. Layer adapted meshes have first been pro-
