Dear Vaishali,

Welcome to the Redington family.

On behalf of all the colleagues at Redington, I invite you for an exciting and enjoyable journey called "*A Career @ Redington*".

Empowerment is the basic covenant practiced at Redington and every team member is expected to take decisions and act independently, commensurate with the responsibility each one is entrusted with.

As soon as you become familiar with the basics of your responsibility, *you would be encouraged to demonstrate initiative and drive* towards achieving the objectives set for you by the Company.

At Redington, your initial assignment is of course governed by a set of pre-determined parameters. But, going forward, *your career path would be determined only by a single factor - 'YOURSELF'*.

Redington believes in rewarding performance and the ability to deliver within broad but specific parameters. With *personal & professional integrity carrying the highest premium in assigning increasing responsibilities*, accelerated individual growth has been the norm, rather than an exception at Redington.

One of our most important decisions has been to reserve senior responsibilities, *as far as possible*, for individuals within the organization. We prefer not to recruit senior managers from outside. *We would love to have you grow and grow very rapidly, into one of these higher positions of responsibility.*

We are extremely particular about promoting an open work-culture, where hierarchical protocols are willfully kept to the minimum. The governing principle is "*respect for each & every person's role*" in the organization, "*with an equal opportunity for everyone to realize his or her full potential*".

Redington India is a very young Company. Within a short span of 25 years of its existence, it has carved out an enviable niche for itself in the IT industry. In many ways, what we have achieved is unique and all of us take great pride in this achievement.

An organization is what its people make it to be. We are entrusting the future of Redington to your very capable hands.

Come, let us work towards building Redington into one of the truly "Great" organizations of the country.

I wish you an exciting, rewarding and fulfilling journey with Redington.

Warm Regards,

Ramesh Natarajan
CEO

Dear Professor,

Hope you and your loved ones are doing well.

We are happy to share the list of students from your institute who have cleared the pre-placement interviews that were conducted based on a student's performance. Please refer to the attached excel sheet for the list.

These students have been offered one of the three entry-level roles at Infosys: Systems Engineer (SE)/ Digital Specialist Engineer (DSE)/ Specialist Programmer (SP).
