Kurukshetra University, Kurukshetra

Subject : Organization of 3-week REFRESHER COURSE IN ENGLISH TO BE HELD FROM 06-11-2017 TO 25-11-2017.

Sir/Madam,

I am desired to inform you that the following teacher(s) of your Department/Institute/College has/have been allowed to participate in the 3-week Refresher Course in English to be organized under the UGC scheme from 06-11-2017 to 25-11-2017.

Dr. Vikram Singh, Assistant Professor

You are requested kindly to depute the concerned teacher(s) to report for participation in the course by 9.30 AM on 06-11-2017 in the Department of English of this University where the course is proposed to be conducted. The participant shall pay an admission fee (non-refundable) of Rs. 1000/- (Rupees One Thousand only) in the shape of Bank Draft payable at Kurukshetra in the name of the Registrar, Kurukshetra University, Kurukshetra. The outstation participants will be paid Rs 300/- per day for boarding & lodging. Local participants will be paid Rs.300/- per working day. Outstation participants will also be paid A/C III railway fare (all trains) or A/C deluxe bus fare on production of tickets. The payment will, however, be released to them only on the last day if they have submitted their bills well in time. The teachers of colleges that do not yet come within the purview of Section 12(B), but have been affiliated to a university for at least two years, will be permitted to participate in the programmes/courses. However, they won't be paid TA/DA and other allowances for attending these courses.

Outstation participants will be provided accommodation in the Faculty House of the University, if available, on payment of usual charges by them. They may, however, like to bring their own beddings, locks, bulb, etc. with them for their convenience.

As per directions of UGC, performance of the participants in the course will be assessed. Those teachers who get 'D' grade are required to repeat the programme after a gap of one year without financial commitment to the UGC-HRDC. The grades will be indicated on the certificate to be given to the participants.

Only those teachers should be deputed whose applications have been forwarded by the Competent Authority failing which the teachers will not be allowed to join the course in the Human Resource Development Centre.

Kindly confirm their participation in the course through telephonically/e-mail/by post along with a Bank draft of Rs. 1000/- (Rs. One Thousand only) latest by 25-10-2017 failing which it will be presumed that the teacher is not interested in attending the course.

Yours faithfully,

for DIRECTOR

C: Dr. Vikram Singh, Assistant Professor, Department of English, Kurukshetra University, Kurukshetra

He/She/They is/are requested to report for the course as indicated above and bring your relieving letter and certificate for claiming TA/DA (enclosed) from the competent authority. As per latest guidelines, the teachers would be required to present one seminar paper during the course. The time and date of presentation shall be notified during the course. In case of any default by the applicant, the Director has all the rights reserved to withhold admission or payment of TA/DA and the certificate of the course. The teachers will not be given any type of leave during the course. The teachers who attend full three weeks programme will be given a certificate. As per the XIIth Plan Guidelines of University Grants Commission, the number of participants should not be less than 30 failing which the course/programme will be considered as non-functional. Kindly confirm participation in the course through telephonically/e-mail/by post along with a Bank draft of Rs. 1000/- (Rs. One Thousand only) latest by failing which it will be presumed that the teacher is not interested in attending the course.

**REPORT OF THE REFRESHER COURSE IN IT(ID) HELD FROM 03/12/2018 TO
22/12/2018**

Teaching is without a doubt one of the most significant professions and without it world would never had become worth living. "A skillful teacher is an asset for both the students and the institution". The teachers, specially dealing with higher education, need to equip themselves with the latest academic skills and techniques. We, the teachers, being the enlightened section of society, have to rise to the occasion and act as torchbearers of the universally-acknowledged eternally true values like humanity, compassion, brotherhood and love for the entire mankind. In addition to it, our primary responsibility was to impart knowledge to students. The so-called "information explosion" requires to be converted into "knowledge explosion".

In the refresher course a total of 68 participants from different states took part. In the feedback given by them, they opined that course refreshed their knowledge and motivated them to be aware of the latest trends in IT.

The course was inaugurated on 3/12/18 by Prof. Shyam Kumar, Dean, Academic Affair. He discussed about the journey of IT from punched card to IoT. He also cautioned about the overuse and misuse of IT. On the same day Prof. Vikram Singh, Dean, Academic Affairs, CDLU, Sirsa discussed about CERT (Computer Encryption Response Team), WIPO (World Intellectual Property Organization), Computer Virus and many other interesting things. Indeed, the lecture was full of knowledge with updated facts and information.

Prof. Bhagwan Singh from the dept. of geophysics was the resource person on the next day. He delivered a talk on Indian Space Programme. He talked about INSAT-communication, Broadcasting, meteorology, Natural Resource Management, PSLV, GSLV, etc. In the second session he expressed his views on Disaster management and the essential measures to be taken. Both of his lectures were thought-provoking and useful in current scenario.

Prof. Pardeep Kumar, Incharge, IT Cell delivered his talk on the topic "Big data" and other related things. He discussed the use and handling of big data in today's world.

On the next day Prof. Aman Sharma, HPU, Shimla expressed his views on software, hardware and its related things. His topic of discussion was "Emerging Trends in IT". He beautifully explained Open Source Software such as Open Office, Linux, etc. In his second lecture he discussed about e-waste and its management. He emphasized on the causes and remedies of e-waste. His lectures were very informative and useful for all of us.

Dr. Kanwal Garg, Department of computer science, Kurkshetra University delivered a lecture on the topic '**Data Allaround**'. In his lecture, he streamlined the idea, why data is important for us, what is the volume of Data and how we made a progress from Data to information and knowledge. He further told us regarding kinds of Data, types of Data and factors affecting the

probable negative points, is not an appropriate way. He also discussed the controversies and criticism regarding IoT and technological challenges of IoT. This was a very informative and interactive session.

Dr. M.S Kadyan, Chairman, Dept. of Statistics & OR discussed the topic "Descriptive and inferential statistics by using SPSS" very efficiently. He told us about the types of data and discussed difference between qualitative and quantitative data. He also discussed with us about different scales of measurement. He illustrated SPSS in a very efficient manner using appropriate examples.

Dr. Chander Kant from DCSA, KUK explained the detailed study of biometric system in a simple manner. He discussed various biometric technologies such as Finger print, Face recognition, Voice recognition; Iris scan, Retina Scan and Hand geometry etc. He discussed the concept of verification and identification of biometric technologies along with challenges in the biometric system such as accuracy, security and privacy. He made his presentation very effective with the help of videos and examples. It was very interesting and informative talk for all the participants.

Dr. Navneet Arora, Department of Mechanical Engg. from IIT Roorkee delivered a motivational lecture for the teachers. His topic was 'Excellence in Teaching and Expectations from a teacher'. He told that we should have a balance in academic and personal excellence. One must have a good vision for personal excellence. He elaborated the role of a teacher, responsibility of teacher and what should be art of teaching. He also discussed the other professions comparing with the teaching profession. He also discussed about society oriented values and the role of a teacher. His lecture was very appreciated by all the participants.

DR. MANU SOOD, Professor, Department of computer science, HP University, Shimla, delivered a talk on the topic: ICT Perspective, Latest & Emerging Trends. He explained the difference between IT & ICT and told that the convergence of IT (information technology) and TT (telecommunication technology) becomes ICT (Information & Communication Technology). He also discussed the security and privacy issues associated with the use of ICT. In the second session, he explained the newly emerging subject of data science which requires mathematical expertise, business strategies and hacking skills. He also told that it will be a major career opportunity for future. He also described the term net neutrality and BIG DATA. He expressed his deep concern that the days are not too far that the humans will be governed by the robots which will be dangerous, so the technology should be used by use for betterment of mankind. It should not be reached at that level where the technology starts governing us.

Dr. Ashutosh Kumar Singh from NIT, Kurukshetra delivered a very knowledgeable lecture on 'Internet of things'. He talked on various aspects of emerging trends in the area of internet technology. The current status and future prospects of internet along with its vast potential were discussed in a very elaborative manner. He also gave an idea about cyber-physical system which would be the next frontier. He also extended this concept discussing different avenues of cyber physical systems like embedded systems, cybernetics, mechatronics, robotics etc. His lecture was full of knowledge and proved very fruitful for all of us.

Dr. R.K.Deswal, Professor and Chairman, Department of Philosophy, Kurukshetra University, Kurukshetra delivered a lecture on YOGA and MEDITATION. He told us about origin of Yoga. He shared information about the Impact of the Yoga and Meditation. He explained various

Detailed Report of the Summer School in Geospatial Technology Level – I Training Programme

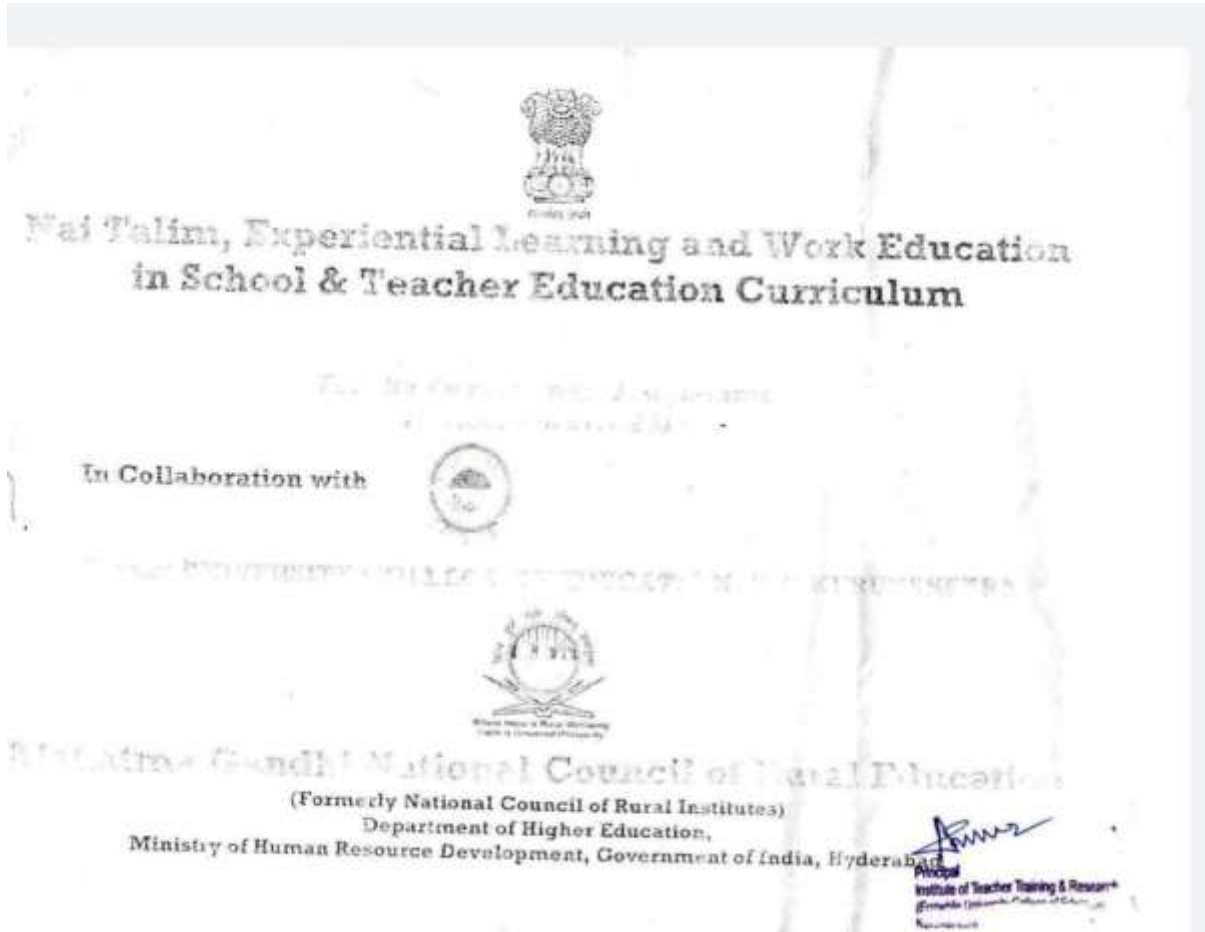

Department of Geography, Kurukshetra University, Kurukshetra organized a training Programme on Geospatial technology from May 27, 2019 to June 16, 2019. This training Programme was financially supported by National Resources Data Management System, Department of Science and Technology, New Delhi. This training programme was inaugurated by Prof. K.C. Sharma Vice-Chancellor, Kurukshetra University, Kurukshetra. On this occasion Dr. V.S. Arya Director Haryana Space Application Centre delivered the keynote addressed. Dr. Sanjay Kumar Jain was the Guest of Honor on this occasion. This training programme was an array of various geospatial technologies and participants were made aware from fundamentals to advanced technique of the technology. The participants were made aware about various software like, Quantum, ArcGis, Erdas, Spans, ENVI, ILVIS etc. Similarly, the participants were made aware about various satellite platforms like Modis, Eater, Bhuvan, Landsat, Ikonos, Anova etc. The participants were made to learn both on-screen and manual digitization of the georeferenced data using co-ordinate system. The participants not only learn about the theoretical aspect of the technology but they were provided hands on practice of various software's to enhance their skills in map making. The participants were also made aware about practical applications of geospatial technology like land surface temperature, land use land cover, flood modelling, forest, wild life, agriculture, watershed with specific case studies. In the end, participants prepared their own projects pertaining to land use land cover, land surface temperature, urban sprawl and many more in this context. This 21 days programme concluded with participants, participation in discussion, feedback and valedictory function.

one week short term course on advance AI computer aided manufacturing from april 2019

NP-1

DEPARTMENT OF MECHANICAL ENGINEERING
UNIVERSITY INSTITUTE OF ENGINEERING & TECHNOLOGY
(A constituent Autonomous Institute)
KURUKSHETRA UNIVERSITY, KURUKSHETRA
(Established By State Legislature Act XII of 1956)
(“A” Grade, NAAC Accredited)

Subject: Submission of Proposal for Conducting TEQIP-III sponsored Short Term Course on “Advances in Computer Aided Manufacturing” from 1st April 2019 to 5th April 2019 (One week).

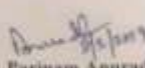

It is submitted that as per the proposed action plan of TEQIP-III of UIET KUK every department in the institute has committed to organize short term courses, workshops, training programs etc. from the TEQIP-III funds for students, research scholars and faculty members to develop better learning environment and research acumen in the institute.

In continuation to fulfillment of the objective, it is proposed to conduct a TEQIP-III sponsored Short Term Course on “Advances in Computer Aided Manufacturing” from 1st April 2019 to 5th April 2019 (One week). In this regard, eminent experts from IITs/NITs, Parametric CAD Tech., Chandigarh and other reputed institutes will deliver expert lectures and provide hands on practice on various design model techniques on CNC machines as well (tentative list attached at Flag ‘A’). The proposed STC is planned to provide academicians and practicing engineers with the principles and techniques of computer aided manufacturing. This will help the delegates to update their knowledge and provide a platform for future research activities in the field of designing and manufacturing fields. This will also help the students in their placements. The program is targeted for a group of faculty, students and research scholars consisting of **60 in number**. The students, faculty and staff from Mentee institute i.e. Institute of Technology Gopeshwar will also be invited so as to enhance **twinning activities**. The total estimated expenses for conducting this Short term course is expected to be approx. **Rs. 1,67,000/-** (as per detail attached at Flag ‘B’) and the same will be met from TEQIP-III project head.

Therefore, an expenditure of **Rs. 1,67,000/-** may please be allowed from TEQIP-III project head and Director UIET may be authorized to release an advance of **Rs. 50,000/-**.

The Hon’ble Vice-Chancellor may be requested to approve the following proposed committee (Flag C) for smooth conduct of the above said Short Term Course.

Submitted for the kind approval please.

कुवि के महिला अध्ययन शोध केन्द्र में चल रहे अल्पकालीन कोर्स का हुआ समापन

कुरुक्षेत्र, यशवाव न्युज।

कुरुक्षेत्र विश्वविद्यालय कुरुक्षेत्र के महिला अध्ययन शोध केन्द्र द्वारा 18 से 23 नवम्बर तक चलाए जा रहे अल्पकालीन कोर्स 'उच्चतर शिक्षा में महिला प्रबंधकों की क्षमता निर्माण' का शनिवार को अंतिम दिन था। इस कोर्स में कुरुक्षेत्र विश्वविद्यालय के विभिन्न संबन्धित महाविद्यालयों से 44 महिला प्रबन्धकों ने भाग लिया। इस छः दिवसीय कोर्स के माध्यम से महिला शिक्षकों को नेतृत्व के गुर सिखाए गए। प्रत्येक शिक्षक का लीडरशिप स्टाइल अनुभव होता है। किस प्रकार हम इस गुण को विकसित कर सकते हैं, अपनी क्षमताओं को निखार कर तथा अपनी कमियों को काबू करके उच्चतर शिक्षा के उच्च पदों पर पहुँचा जा सकता है। कार्यशाला के इस उद्देश्य को ध्यान में रखते हुए कार्यक्रम में विभिन्न प्रतिष्ठित प्रशिक्षकों के माध्यम से प्रतिभागियों को क्षमता बढ़ाने के लिए प्रेरित किया गया। इस कोर्स में छः दिनों के दौरान महिला अध्ययन

परिप्रेक्ष्य, क्रिटिकल थिंकिंग, ट्रेनिंगेशनल एनालिसिस, महिलाएं एवं शोध, व्यवसायिक कुशलता हेतु सूचना प्रौद्योगिकी के उपयोग को अपनाना, महिलाएं एवं गवर्नेंस, बर्क-लाइफ बेलेंस, नेगोसिएशन स्किल, फाइनेशियल मैनेजमेंट, तनावमुक्त व्यक्तित्व, मानव संसाधन प्रबंधन, लीडरशिप स्टाइल तथा महिला उद्यमियों का विकास आदि विषयों पर प्रशिक्षण दिया गया।

आज के अंतिम सत्र में भारतीय प्रौद्योगिकी संस्थान, रुड़की से प्रो. संतोष रंगनेकर ने केस स्टडी तथा रोल प्ले के माध्यम से बताया कि कई बार हमारे कार्यक्रम पर अधिकारियों के साथ हमारे विचार नहीं मिलते या संबंध ठीक नहीं होते तब हमें सामंजस्य, मुझबूझ से काम लेकर परिस्थितियों को बेहतर

बनाना है। उन्होंने कहा कि उचित नेतृत्व स्टाइल अपनाकर हम अपने कार्यक्षेत्र को सकारात्मक बना सकते हैं। उन्होंने महिलाओं को उद्यमी के रूप में विकसित करने के लिए आवश्यक गुणों को जानकारी भी साझा की। समापन सत्र में मुख्यअतिथि के रूप में प्रो. संतोष रंगनेकर रहे। कोर्स कोर्डीनेटर प्रो. सुदेश ने समापन वक्तव्य देते हुए कहा कि उन्हें आशा है कि सभी प्रतिभागों रिसोर्स पर्सन के विस्तृत अनुभवों तथा ज्ञान से लाभान्वित हुए होंगे तथा अपने अपने महाविद्यालयों में अपने साथी प्रबन्धकों तक भी यह जानकारी साझा करेंगे ताकि एक सकारात्मक माहौल बन सके जिसमें सभी शिक्षक अपनी क्षमताओं का तो संवर्धन करे साथ ही अपने विद्यार्थियों का भी उचित मार्गदर्शन कर सकें। इस अवसर पर डॉ. रमेश दलाल, चैयरपर्सन, स्कूल ऑफ मैनेजमेंट, डॉ. सुशील शर्मा, डॉ. वंदना देवे, डॉ. मिनाक्षी, डॉ. सोनिया मलिक, डॉ. शोभा यादव, डॉ. नितिका, डॉ. हरनीत, डॉ. शानु आदि उपस्थित रहे।

About the University
 Located in Kurukshetra, the land of the Bhagwadgita, Kurukshetra University is a premier institute of higher learning in India. It is spread over 470 acres of land on the south bank of the Holy Beahmsarovar. Its foundation stone was laid on 11 January 1957 by Bharat Ratna Dr. Rajendra Prasad, the first President of the Indian Republic. Since then it has aimed at pursuing excellence in teaching and research in the field of science, technology, humanities, social sciences, performing arts and sports etc. Today, Kurukshetra University is offering world-class education to students from throughout India and other countries by providing a learning experience designed to develop intellectual abilities as well as social, moral and ethical values. The University is equipping its students with the skills, insights, attitudes and practical experiences that will enable them to become discerning citizens.

Department of Computer Science & Applications
 Kurukshetra University has taken pioneering position in imparting training and education in the field of Computer Science & Applications. Kurukshetra University was the first to foresee the impact that computers would have on the 21st century. To give an impact to the vision and work on it, the university started imparting education in the field of computer science and applications way back in 1981 by starting an UGC sponsored computer course and it was the first of its kind in the whole country. In the year 1981, the Department of Computer Science and Applications was established and Kurukshetra University was the first in the country to start a UGC supported one year MCA programme. This was replaced by a two year MCA programme from the academic year 1984-85 onwards. In December 1990, UGC sanctioned the proposal of Department of Computer Science & Applications to update the two-year MCA programme to three-year MCA programme and the same was launched in the session 1991-92. The department had started two year M.Sc. (Computer software) w.e.f. academic session 1995-96, and M.Tech. in Computer Science & Engineering was also started w.e.f. academic session 1996-97. The department is providing a wide range of hardware and software facilities for students and faculty members under different platforms and processing environments. The department has now blossomed from a humble start in 1981 to a full-fledged education centre providing major courses like Ph.D., M. Tech., M.C.A. & M.Sc. (Comp. Sc.) S/W. Department can now boast of a faculty comprising of 14 faculty members, 05 Computer Labs equipped with state of the art technology and a placement cell providing job opportunities to students.

Major Facilities
 The department is equipped with five computer labs. The total number of machines available are approximately 250 comprising of 4 IBM xeon servers, 120 thin clients and i7/i3/Core2 Duo/Dual Core/P-IV machines, Laser printers, network printers and software like ORACLE, Visual studio, Windows, Linux, etc. The departmental library provides approximately 10,000 books (Text and reference) with a sitting capacity of 60 students.

Theme of Faculty Development Program
 Creating a new scalable venture is a challenging and complex task. The road to entrepreneurial success is long, winding and strewn with pitfalls, obstacles and blind turns. The risks of starting a new business are high, as illustrated by the high failure rates for new ventures. However, as is always the case, the rewards, both financial and personal, are commensurate with the risk. This FDP helps participants understand the process, challenges, risks and rewards of starting up a new scalable venture so as to guide the new entrepreneurs to equip them with the tools required to start their own business, improve their chances of successfully starting their own business, generate and assess scalable business ideas, develop creative problem-solving skills required in entrepreneurial businesses, develop a business model and competitive strategy, form and work successfully in a team, raise money from venture investors, and make a professional investor presentation.

Who Can Attend?
 Faculty members/researchers from any department of Universities/Institutes/Colleges. **The number of seats are limited to 35 and will be on first come first serve basis.**

Resource Persons
 Eminent speakers from reputed institutions/industries.

Accommodation
 The accommodation may be made available on request. The accommodation charges will be borne by the participants.

इन्फार्मेशन टेक्नोलॉजी में चल रहे डिफेंसर कोर्स हुआ समापन

कुरुक्षेत्र (6/11/2019) : कुरुक्षेत्र विश्वविद्यालय, कुरुक्षेत्र के मानव संसाधन विकास केंद्र व कंप्यूटर विज्ञान व तकनीकी विभाग के संयुक्त तत्वाधान में दो सप्ताह से चल रहे डिफेंसर कोर्स का आज समापन हो गया। समापन समारोह में श्री विवेक वर्मा, State Informatics Officer एंड टेक्निकल डायरेक्टर इन नेशनल इन्फार्मेटिक्स सेंटर, बंटीगढ़ ने, बतौर मुख्य वक्ता शिरकात की व प्रतिभागियों को प्रमाण पत्र देकर सम्मानित किया। उन्होंने प्रतिभागियों को भारत सरकार द्वारा चलाई जा रही डिजिटल सेवाओं के बारे में विस्तृत जानकारी दी व बताया कि किस प्रकार डिजिटल क्रांति ने देश के स्वरूप को नए आयाम देने का कार्य किया है। उन्होंने डिफेंसर कोर्स के उद्देश्यों को सारगर्भित करते हुए कहा कि शिक्षा के बदलते हुए परिवेश में प्राध्यापकों द्वारा शिक्षण स्तर व निपुणताओं में भी बदलाव समय की सबसे बड़ी आवश्यकता है। आज के युग में जब विद्यार्थी के पास सीखने के लिए अपार स्रोत उपलब्ध है तब उच्च शिक्षण स्तर पर कार्य कर रहे प्राध्यापकों का दायित्व और भी अधिक बढ़ जाता है कि वे किस प्रकार से उपलब्ध स्रोतों व उनके अपने पास उपलब्ध जानकारी को किस प्रकार विद्यार्थियों को उपलब्ध कराएं ताकि प्राप्त ज्ञान का उत्तम उपयोग राष्ट्र के निर्माण व विकास में नींव का कार्य कर सकें। मानव संसाधन विकास केंद्र, कुरुक्षेत्र विश्वविद्यालय कुरुक्षेत्र की निदेशिका डॉ नीरा वर्मा ने प्रतिभागियों से कहा कि उन्होंने विज्ञान व तकनीकी क्षेत्र का जो ज्ञान डिफेंसर कोर्स में प्राप्त किया है उसका उचित उपयोग विद्यार्थियों व अपनी कार्यरत संस्था के विकास के लिए करें। डिफेंसर कोर्स के संचालक डॉ रमेश कुमार ने सभी प्रतिभागियों को डिफेंसर कोर्स के पूर्ण होने पर बधाई दी और कहा कि आज के भारत में शिक्षा क्षेत्र का कोई भी आधुनिक विज्ञान व तकनीक से अछूता नहीं है। जब तक प्राध्यापकों को नई तकनीकों के बारे में उचित जानकारी उपलब्ध नहीं होगी तब तक उनके द्वारा विद्यार्थियों को दिया जा रहा ज्ञान अधूरा है क्योंकि आज का विद्यार्थी तकनीकी आधारित शिक्षा क्षेत्र का अभिन्न अंग है। समापन समारोह में मंच संचालन डॉ हेमा सुखीका ने किया। श्री सुमित शीषेल ने डिफेंसर कोर्स की रिपोर्ट प्रस्तुत की व श्री शाल कौशिक तथा डॉ रुचिका यादव ने डिफेंसर कोर्स की फीडबैक प्रतिभागियों के सामने रखी। डिफेंसर कोर्स के सह संचालक प्रोफेसर संजय तानी ने मुख्य अतिथि व इस अवसर पर फारारे अन्य अतिथियों तथा सभी प्रतिभागियों का धन्यवाद किया। इस कार्यक्रम में प्रोफेसर रावींद्र नाथ मुख्य रूप से उपस्थित रहे।

FDP on " Outcome based education and NBA Accreditation"

Venue: Electronic Science Department, KUK

Date:- 04/11/2019

One-week Faculty Development Program on “Outcome Based Education and NBA Accreditation” was started today in Electronic Science Department, Kurukshetra University. This program is being organized in association with NITTTR, Chandigarh. In this program, engineering professors from many universities and colleges will be provided training about an education system which ensures quality of technical education and also increases employability of engineering graduates.

The inauguration of this FDP was done by Vice chancellor Prof. Kailash Chander Sharma on 4th November in Electronic Science Department. Vice Chancellor, Prof. Kailash Chander Sharma motivated the teachers to ensure the international accreditation for the academic programs so that students studying in accredited

institutions can be assured that they will receive education which is a balance between high academic quality and professional relevance and that the needs of the corporate world are well integrated into programs, activities and processes. It signifies that he has entered an Institution, which has the essential and desirable features of quality professional education. NBA Accreditation gives international recognition to the degrees offered by the accredited program.

Prof. Suresh Kumar, Chairperson, Electronic Science Department informed that this faculty development program is being funded by world bank project which gives emphasis on improving the quality of technical education. He informed that electronic science department has organized recently FDP on nanotechnology. He emphasized that professional knowledge, skills, abilities, values and attitudes in the teacher are more important for the growth of academic institutions.

Dr. Mukesh kumar coordinator of this program, informed the participants about the importance of NBA Accreditation and outcome based education system. Dr. Mukesh Kumar said that in order to reduce the unemployment among educated youth, teachers need to shift to the new education system, which demands more focus on outcomes rather than just increasing the output. At present, most teachers are teaching in traditional classroom setups which are highly "teacher-centered" or taught with fixed curricula. He told that in today's world, everything changes very rapidly and continuously. So learning of relevant technical skills are required to work with very fast developing technology.

Prof. B.S Pabla from NITTTR, Chandigarh said that in the existing scenario, academic institutions/universities already have Quality Assurance systems which maintain exhaustively mechanism of monitoring, controlling and continuously improving teaching learning, infrastructure, Research and other activities like student placement. But we need to look forward to make this system of delivering quality education more meaningful and productive in terms of employability of students after completion of their degrees.

The function ended with vote of thanks by Dr. Virender Singh Kundu. Prof. Anil Vohra, Prof. CC Tripathi, Director UIET, Prof B. Prasad, Dr. Anurekha Sharma was also present during the occasion.

NO. EES/2019/45/15

DATED 30/09/19

Sub - Proceeding of the workshop on Faculty Development Programme on "Nanoscience & Nanotechnology" (One Week) was held on 19-24 Aug 2019.

The department of Electronic Science organized a Faculty Development Programme on "Nanoscience & Nanotechnology" (One Week) from 19-24 Aug 2019. The FDP was organized smoothly and the list of Speakers/Expert and participants is attached herewith for your information. The final expenditure details towards this FDP are as under:

- (i) Remuneration of the invited speaker/expert- Rs 94,500/- (Annex I)
- (ii) TA/DA for speakers including taxi charges- Rs 1,75,055/- (Annex I & II)
- (iii) Refreshment including all meals - Rs 1,52,550/- (Annex III)
- (iv) Accommodation - Rs 8,250/- (Annex III)
- (v) Contingency - Rs 95,907/- (Annex III)
- (vi) Coordinator/Co-coordinator Remuneration - Rs 6,000/-
- (vii) Remuneration for Accounts Clerk & peon - Rs 5,000/- (Annex III)
- Total Expenditure of the FDP - Rs 5,37,262/-

An advance for Rs 50,000/- was drawn for FDP out of which the bills of Rs 49821/- paid out to various firms. The these detail of bills are mentioned and attached at Annex III. The balance amount of Rs 179/- deposited in TEQIP account.

An amount of Rs 7400/- received as registration fee (details attached) and the same has been deposited in TEQIP account.

TECHNICAL EDUCATION QUALITY IMPROVEMENT PROGRAMME- Phase - III
University Institute of Engineering & Technology (UIET)
Dated: 05-08-2019

Subject: Permission to organize National Level Faculty Development Programme on "Futuristic Electronics Materials, Devices and Applications" from August 26 to 31, 2019 at UIET out of TEQIP-III Project funds.

A request proposal from Department of Electronics & Communication Engineering to organize National Level Faculty Development Programme on "Futuristic Electronics Materials, Devices and Applications" from August 26 to 31, 2019 may kindly be perused.

In this regard, it is submitted that there is a provision to organize such kind of Faculty Development Programme under TEQIP-III Project. This FDP will be organized to discuss and provide an overview of current and future trends in modern electronics devices: synthesis, characterization with application such as sensors, supercapacitors, energy storage devices etc. as stated by the Convener of the programme at NP-1 ante.

As per position explained above, the Hon'ble Vice-Chancellor may kindly be requested to allow for organizing of the above said Faculty Development Programme out of TEQIP funds and may also be requested to approve the Proposed Functional Committees 'A' and 'B' at NP-1 ante for smooth conduction of FDP. The total expenditure of Rs.3,50,000/- (approx.) for the conducting of above said FDP will be incurred out of TEQIP Budget-Head - Faculty & Staff Development and Motivation. The details of expenditure is attached at Flag - 'B' which includes Honorarium, TA, Boarding & Lodging of the outside experts, Lunch, Refreshment, Registration Kit, Mementos, printing etc.

Submitted for consideration and approval, please.

ONE WEEK INTERDISCIPLINARY CAPACITY BUILDING PROGRAMME
On
MOOCs and Open Educational Resources
For
Faculty of Universities/ Colleges/ Institutes
September 16-21, 2019.

Organized by
Faculty Development Centre
Kurukshetra University, Kurukshetra
(*A+* Grade University Accredited by NAAC)

Under the Scheme of
Pandit Madan Mohan Malaviya National Mission on Teachers & Teaching (PMMNMTT)
Department of Higher Education,
Ministry of Human Resource Development,
Government of India

Faculty Development Centre

Post independence India has seen massive expansion of education system. Public discourse around this reflects satisfaction in terms of improved 'equity in educational opportunities' but desires much to be done regarding 'quality of education. Criticality of the competencies of the teacher in ensuring qualitative education is well established. Role expectations of the faculty are wired around teaching-learning process, assessment strategies, pedagogical content and its tools for designing learning experiences. Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMNMTT), an initiative of MHRD, Govt. of India, is envisaged to address comprehensively all issues related to teachers, teaching, teacher preparation and professional development. Under this scheme Faculty Development Centers (FDCs) have been established to inculcate among the teachers the motivation to promote institutional effectiveness through the development of personal, instructional, organizational and professional growth of the faculty.

A One Week Capacity Building Program on "MOOCs and Open Educational Resources" is conceived towards the achievement of these objectives.

The Capacity Building Programme

Recent advances in the field of education are demonstrative of the lasting influence of Information and Communication Technologies. Digitization of information has strengthened pedagogical processes in terms of access and delivery of content knowledge. Provision of Open Educational Resources (OER) and Open Access (OA) has been the focus of latest Educational policies at the national level. In this direction Government of India has undertaken various initiatives like National Programme on Technology Enhanced Learning (NPTEL); National Mission on Education through Information and Communication Technology (NMEICT); Study Web of Active-Learning by Young Aspiring Minds (SWAYAM) and Massive Open Online Courses (MOOCs) etc. Capacity Building programme on MOOCs and Open Educational Resource aims to promote professional effectiveness of the faculty in Higher Education in this direction.

Objectives of the Programme

Capacity Building programme on MOOCs and Open Education Resources aims to:

- Create awareness about Digital Initiatives of Government of India in Higher Education.
- Orient the faculty to use MOOC platform for effective delivery of courses in higher education in blended as well as online modes.
- Understand the process of planning, designing and implementing MOOC courses with SWAYAM MOOC requirements.
- Get acquainted with Open Educational Resources (OER) and their potential collaboration with traditional instructional design.
- Establish effective communication and collaboration with the students to design and manage transaction of content as well as assessment of learning using digital tools.

Target Group

Applications are invited from faculty members of Universities/ Colleges/ Institutes of Higher Education to enroll for the programme. Preference will be given to those teachers working in Universities or Colleges under Sections 2(f) and 12 B of the UGC Act, 1956.

Interested applicants may apply at the earliest on the attached application form. Please note that applicants will be invited for the course on first come-first serve basis and the maximum number of participants will be 25.

Registration

There is no registration fee for participation in the programme. Travelling allowance will be reimbursed to outstation participants as per University rules. In addition to TA, participants will also be provided boarding/lodging by the Faculty Development Centre during the Capacity Building Programme in the university guest house/ hostels as per availability.

ONE WEEK INTERDISCIPLINARY CAPACITY BUILDING PROGRAMME

On

MOOCs and Open Educational Resources

For

Faculty of Universities/ Colleges/ Institutes

September 16-21, 2019.

Organized by
Faculty Development Centre
Kurukshetra University, Kurukshetra
(A+ Grade University Accredited by NAAC)

Under the Scheme of

Pandit Madan Mohan Malaviya National Mission on
Teachers & Teaching (PMMMNMTT)
Department of Higher Education,
Ministry of Human Resource Development,
Government of India

Faculty Development Centre

Post independence India has seen massive expansion of education system. Public discourse around this reflects satisfaction in terms of improved 'equity in educational opportunities' but desires much to be done regarding 'quality of education. Criticality of the competencies of the teacher in ensuring qualitative education is well established. Role expectations of the faculty are wired around teaching-learning process, assessment strategies, pedagogical content and its tools for designing learning experiences. PanditMadam Mohan Malviya National Mission on Teachers and Teaching (PMMNMTT), an initiative of MHRD, Govt. of India, is envisaged to address comprehensively all issues related to teachers, teaching, teacher preparation and professional development. Under this scheme Faculty Development Centers (FDCs) have been established to inculcate among the teachers the motivation to promote institutional effectiveness through the development of personal, instructional, organizational and professional growth of the faculty.

A One Week Capacity Building Program on "MOOCs and Open Educational Resources" is conceived towards the achievement of these objectives.

The Capacity Building Programme

Recent advances in the field of education are demonstrative of the lasting influence of Information and Communication Technologies. Digitization of information has strengthened pedagogical processes in terms of access and delivery of content knowledge. Provision of Open Educational Resources (OER) and Open Access (OA) has been the focus of latest Educational policies at the national level. In this direction Government of India has undertaken various initiatives like National Programme on Technology Enhanced Learning (NPTEL); National Mission on Education through Information and Communication Technology (NMEICT); Study Web of Active-Learning by Young Aspiring Minds (SWAYAM) and Massive Open Online Courses (MOOCs) etc. Capacity Building programme on MOOCs and Open Educational Resource aims to promote professional effectiveness of the faculty in Higher Education in this direction.

Objectives of the Programme

Capacity Building programme on MOOCs and Open Education Resources aims to:

- Create awareness about Digital Initiatives of Government of India in Higher Education.
- Orient the faculty to use MOOC platform for effective delivery of courses in higher education in blended as well as online modes.
- Understand the process of planning, designing and implementing MOOC courses with SWAYAM MOOC requirements.
- Get acquainted with *Open Educational Resources* (OER) and their potential collaboration with traditional instructional design.
- Establish effective communication and collaboration with the students to design and manage transaction of content as well as assessment of learning using digital tools.

Target Group

Applications are invited from faculty members of Universities/ Colleges/ Institutes of Higher Education to enroll for the programme. Preference will be given to those teachers working in Universities or Colleges under Sections 2(f) and 12 B of the UGC Act, 1956.

Interested applicants may apply at the earliest on the attached application form. Please note that applicants will be invited for the course on first come-first serve basis and the maximum number of participants will be 25.

Registration

There is no registration fee for participation in the programme. Travelling allowance will be reimbursed to outstation participants as per University rules. In addition to TA, participants will also be provided boarding/lodging by the Faculty Development Centre during the Capacity Building Programme in the university guest house/ hostels as per availability.

Organized by
Faculty Development Centre
Kurukshetra University, Kurukshetra
(*A+* Grade University Accredited by NAAC)

Under the Scheme of
Pandit Madan Mohan Malaviya Mission on
Teachers & Teaching (PMMMNMTT)
Department of Higher Education,
Ministry of Human Resource Development,
Government of India

About the University:-

Commencing its journey in 1956 as a Sanskrit University, this university is presently a multi-faculty, multi disciplinary centre of higher learning. A sprawling 473 acres campus housing 47 departments/institutes within 10 faculties provide a world class learning experience realizing its mission and vision. The commitment of all stakeholders of the university towards excellence in academics and research has resulted in the university being awarded A+ grade by NAAC in 2017 and also been ranked 80th among the universities in the NIRF survey in 2018. As per UGC regulation on Graded Autonomy, our university has been ranked 8th among state universities under Category-1. The University has recently been awarded with Category-1, RUSA-2 grant in addition to funding from national and international funding agencies such as UGC, DST, ICSSR, DRDO, DPT, UNDP, World Bank, etc.

Faculty Development Centre:-

Pandit Madan Mohan Malaviya Mission on Teachers and Teaching (PMMMNMTT), an initiative of MHRD, Govt. of India, is envisaged to address comprehensively all issues related to teachers, teaching, teacher preparation and professional development. Under this scheme Faculty Development Centres (FDCs) have been established in inculcate among the teachers the motivation to promote institutional effectiveness through the development of personal, instructional, organizational and professional growth of the faculty.

Capacity Building Programme:-

The Short Term Course on "Human Rights: Contemporary Challenges and Future Prospects" will be instrumental in creating awareness among the faculty about the emerging challenge of Human Rights and its impact on our culture. This understanding shall orient the faculty in aligning the teaching-learning process to promote the quality of education.

Objectives of the Programme:-

Subject: Organization of 2-week Refresher Course in Languages, Literature & Cultural Studies - Appointment as Course Coordinator.

Dear Sir/ Madam,

You are requested kindly to act as Course Coordinator of the 2-week Refresher Course in Languages, Literature & Cultural Studies being organized from 16-11-2020 to 28-11-2020 on account of which you will be paid honorarium as per UGC norms. While organizing the course, following points may kindly be specified kept in view:

1. A minimum of 72 contract hours for 2-week course is to be ensured.
2. Efforts would be made to cover topics included in course component to the maximum possible extent.
3. Assignments may also be given to the teacher-participants and discussed.
4. The teachers would be required to present research paper during the course.
5. Self-evaluation of the participants, evaluation of the resource persons by the participants and evaluation of course by the participants should be given due emphasis.
6. On the completion of the course, a detailed report, with monitoring feedback proforma and evaluation sheet may be supplied for onward transmission to the UGC.
7. Kindly procure the script/ abstract of the lectures delivered by the resource persons and distribute these on last day in the form of CD to the teacher-participants.
8. All the photocopying work relating to the Refresher Course will be done by the UGC-HRDC.
9. The Coordinator(s) will not be entitled to any extra remuneration for delivering lectures etc. in the course.
10. Adjustments of accounts and expenditure statements, three copies, duly audited should be submitted within 15 days after the completion of the course.
11. Course Evaluation Reports duly filled in by each of the teacher-participants.
12. For more details about the guidelines for the organization of the course please visit www.kuk.ac.in.

Report on Advances in Biometric Security and Image Processing

Prof. Phalguni Gupta, VC GLA univ and former Prof. IIT started First session with the biometric security. He explained very beautifully term authentication practical examples. He started with the traditional modes of authentication. His introductory disclosure was very well structured and conveyed in lucid manners. He explained necessary biometrics attributes. He made the session so interactive that the every participants voluntarily wished to interact and feel themselves as a part of this program.

Prof Phalguni Gupta very effectively outlined with block diagrams and graphs. He explained how we find matching score in Biometric. On the basis of matching score (+ve/-ve) determine system performance. Error rates include the chance of accepting an intruder FAR (False Acceptance Rate) FRR (False Rejection Rate) with graph.

Prof Phalguni Gupta explained some applications of biometric applications with use of particular attribute in tabular manner. His words reflected his experience and store house of knowledge about the development of biometric system.

Prof. Sandeep Sood from NIT kkr started evening session with Biometric Applications and challenges. He explained very beautifully term authentication technologies with very simple and practical examples of medical system and fast tags used in vehicles in our country or other examples given. He started with the traditional modes of authentication. He explained necessary biometrics authentication technologies in very beautiful manner.

Prof. Sood explained the real examples of applications of biometric authentications with use of particular areas in our society. He also explains the uses cloud technologies use the Authentication of matches.

In the morning session of the 2nd Day of Short Term Course, Prof. Dr. Parvinder Singh joined as Resource Person. He started his talk with the topics related to digital image processing with MATLAB. He emphasized on the following proverb during his discussion: ‘A Picture is Worth a Thousand Words’. Photograph is the way to capture images for future reference, but behind the scene, how actually it works was very well depicted in the session. He displayed the image of first photograph of the world, which was quite amazing. He elaborated on numerous topics pertaining to photography, be it image acquisition, image generation, image compression, image analysis, image perception, digital image processing and many more. The boom of digital images and motion pictures in the last 20 years were also discussed in length and breadth. Other topics that were touched during discussion were thermal images, non-electromagnetic imaging modalities, Image Display and perception- CRT, LCD, Plasma, HDTV, Cellular phone etc.

He also described about various topics viz. X-rays, CT-Scan, Ultrasound, Brain Tumor during the session. He enumerated on various aspects of segmentation techniques, thresholding techniques, region growing techniques, clustering techniques, watershed techniques etc. At last, implementation results were also discussed along with comparison with other methods.

In the afternoon Session of the Day 2 of this Short Term Course, Session was chaired by Prof. Manish Jindal, Professor in Computer Science Department, Punjab University Regional Center, Muktsar.

Prof. Jindal started his session with the term CAPTCHA introduction. He explained the concept with the use of many website examples and then he focused on Twisted Turing test. He explained the concept in very simple way with the help of Graphical Images. Then he explained Full form of CAPTCHA. His presentation part was very well structured. He made the session so interactive.

He suggested that developer can make complex CAPTCHA by using some complex Mathematical equations. He has given the idea of different types of CAPTCHA in detail with lots of examples with the pros and cons effects. He also presented the views about the concept reCAPTCHA which is recently developed by Google. Then he explained the concept of Handwritten & Character level CAPTCHA in brief. He explained how to break existing text and image-based CAPTCHA in tabular form. Varieties of schemes were also explained by him.

On the third day, Dr. Arvind Selwal started with topic “Security issues and their Countermeasures in Fingerprint Biometric Systems”. In first part of the talk, he introduced the participant with biometrics, traditional biometric, requirement to the biometric for human recognition for various secure areas. He had shown the biometric market revenues of different continents year wise. He explained very nicely introductory part e.g. application of biometrics, challenges with uni-biometric,

how to enroll and identify the feature of biometric traits in biometric system, different types of sensors etc. to participants. With practical demonstration in MATLAB, he shown step for feature extraction from fingerprints and how to store extracting information in database as template.

Dr. Selwal started his innovative work “Security issues and their Countermeasures in Fingerprint Biometric System”. He told us about the different type of attacks in biometric system with different examples. After this, he delighted us with different attacks and prevention of attacks in fingerprint biometric with different approach e.g. hybrid approach, deep learning approach, CNN model etc. very effectively. In last he discussed the standard dataset for biometric system and participants ask many queries to Dr. Selwal and got solutions.

Dr. Kavita Rathi started evening session by briefing some basic concepts related to Active and Passive image authentication techniques. At first, she discussed about “What is Authentication?” and how manipulation in images takes place. i.e., how image content can be preserved and changed. Then, she started with Image Authentication and explained what the essential requirements for authentication system are and explained two authentication techniques i.e., Active and Passive and how in Active authentication, we provide originality to the image with the help of Digital water marking and Digital Signature. In passive authentication she discussed how it is used in Image forensics.

She discussed various examples used in copy-move forgery detection. After completing this she moved to Image Splicing Detection that how two or more images are combined and original image can be changed to forged image. How image can be

tampered in to different lighting conditions. She shared all the aspects of image authentication techniques with different types of image forgery Attacks.

She explained about the workflow of copy move forgery detection techniques that how it takes place and what are the various steps in which this detection takes place. She compared and contrasted the difference between block based, key based and Hybrid techniques used for image forgery detection.

Dr. Kavita Rathi at the end discussed algorithms used for the image forgery detection techniques and told smooth image exist for block-based algorithm and textured image exist for key based algorithm and explained some applications where image forgery can take place. Her views reflect how much information and knowledge she has in her field.

On the forth day of Short Term Course, Dr. Amit Kamra from Guru Nanak Dev Engineering College, Ludhiana was the resource person and he delivered his lecture on the topic of “Optimization and Classification of Data using Machine Learning”. Dr. Kamra explained that the Visualization and optimization of data has become very important in these days. He made his argument with example of open source software ‘ORANGE’. The speaker gave a practical demonstration on how to install and run this software. He also mentioned the domains where the software is applicable. Some of the fields where the software is being used are as follows: 1. Artificial intelligence 2. Data mining 3. Natural Language Processing 4. Chemistry Domain etc.

Dr. Kamra also expresses his views on file, data table, scatter plot, paint data, box plot and venn diagram etc. The major thrust of his lecture was on “Image Analytic” and “Architectural Distribution”. To clarify the concept of image processing he exemplified the data set of domestic animal of size 20. In this example, he used the image embedding tool and also exhibited the hierarchical clustering. He concluded his lecture with a remark that “orange’ software could have been introduced earlier for better results in the past.

In Evening session Prof. Megha Sharma, started her session by briefing about “Image Enhancement Techniques”. At first, she discussed about “What is Digital Image?” and Source of Digital Image. i.e. electromagnetic energy spectrum. She showed the effect of different waves on images. Then she started with the Acquisition of images and explained about different types of image sensor (single sensor, line sensor and array sensor) and key stages in digital image processing and very well explained the concept of sampling, quantization, resizing images, image enhancement (spatial Domain method and frequency domain method), image negatives and etc.

After completing this she moved to Logarithmic transformations, piecewise linear transformations and explained this with various examples. She shared all the aspects of Histogram Processing with suitable examples and explains Histogram Equalization and Singular Value Equalization.

She explained about the Spatial Filtering and various steps in which this filtering takes place. She discussed about Filtering in the Frequency Domain and She compared and contrasted the difference between Low pass Filters and High Pass Filters. Her views reflect how much information and knowledge she has in her

field. His words reflected her experience and store house of knowledge about the Image Enhancement Techniques.

DATE: 04/03/2021 (THURSDAY)

SESSION TIME: 2.00 PM -3:30 PM

FDP REPORT WRITING

DAY TWO- SESSION - IV

TOPIC : “NEW CHALLENGES AND POSSIBILITIES IN ART”

RESOURCE PERSON: MR. C.S. KRISHNA SHETTY

DATE: 04/03/2021 (THURSDAY)

SESSION TIME: 3.35 PM -5:00 PM

As we know that Department of Fine arts, Kurukshetra University organizes faculty development programs in collaboration with Faculty Development Centre, Pandit Madan Mohan Malviya National mission on Teachers and Teaching, Ministry of education government of India. I am going to present

Lecture report of Day to 4 March, 2021 4rth session which was delivered by Mr. C S Krishna Shetty, an eminent artist and academician. Before starting his lecture Dr. Gurcharan Singh gave his small introduction to CS Krishna Setty Karnataka, studied painting at the Davangere School of Art and then worked in the Garhi Graphics Workshop in Delhi. He is a post -graduate in Kannada literature from Mysore University. After teaching for a few years at the Davangere School of Art, he joined Clarion Advertising and he is now Manager, Public Relations in Bharat Earth Movers

Ltd. He has also been the regular art critic for Kannada Prabha, and now Praja Vani, both leading Kannada Dailies.

His publications include monographs on artists, a book on expressionism and the recent publication 'Chitra Chitta' a collection of essays on art. He has edited various Kannada cultural magazines and has been editor of the 'Janapriya Pustaka Male' series of the Karnataka Lalit Kala Akademi to popularise art amongst the people. Krishna Setty is an inveterate organizer involved in the Karnataka Kala Melas, travelling art shows and founder of 'Dakahavisa' art organization and a member of the KLKA.

He is the founder president of the 'Drushya Kala Sahitya Parishad', an organization formed to promote art writing in Karnataka.

Mr. Krishna Shetty delivered his lecture on “New Challenges and Possibilities in Art” under this title he explores many elements related to art education. Mainly he focuses on the tools and techniques in art education, Government role in art, Curriculum design for art, execution of art education and teaching technique. And upgrade of teacher ability.

In the beginning he said how much our family and society is more centric towards science and technology. And how their first choice is always science and technology. They think that only these two are helping the nation building. Why doesn't anyone think that art has aesthetic value, feelings, emotion, creation and innovation also to solve the social problems with the help of art.

But how art became more valuable and effective?

He answer that if we keep our ideology and art education in a good manner like, we explain to the people about the importance of art, good communication and discussion about art, according his points we start to work and think about art education like –

- Curriculum design for art

- Role of organizations and govt policy for art
- Responsible teaching of art education
- And art teachers also work on a regular basis and upgrades his/her abilities.

If we look back in our art education curriculum development, it still works on our traditional methods that's why the interest of students is much less. And the design of the syllabus is not much updated according to understanding the artist. If we talk about the policy of art education not proper career centric, different eligibility if different palaces for the same job. We are not motivated to have great career opportunities in this fiend.

Responsibility of an art teacher is much more for this every teacher first upgrade to our self, it is his duty to always share authentic information like text books, journals, and magazines like in print form. And also avoid the un identified and less interesting methods in his teaching style. We can use ppt, live demonstration, seminar, conference and active participation in the fiend of art creation and regular visit to museum, art gallery, art exhibition and also motivate the students. Every art educator has the responsibility to make himself a role model towards the students. Always participate in the art competition and exhibition and share it with the students to motivate him.

He also described the covid 19 pandemic effect on art, according to him covid gave us the chance to work our self, to develop our self. And at the end he ask some questions to all the art educators that-

Apart from teaching how many works of art regularly?

How many solo or group exhibitions do you do within a month?

How many awards do you receive for your painting?

How many art galleries do you visit in a month?

How many seminars and conferences did you attend?

How much research paper are you present in a month?

How many lectures do you deliver out of your institution?

How many times do you visit the library or update yourself to upgrading your knowledge?

A CNC machine processes a piece of material (metal, plastic, wood, ceramic, or composite) to meet specifications by following a coded programmed instruction and without a manual operator directly controlling the machining operation. A CNC machine is a automated measurable tool and often a mechanical measurable platform, which are both controlled by a computer, according to specific input instructions. Instructions are delivered to a CNC machine in the form of a sequenced program of machine control instructions such as G-code and M-codes, that instruct. The program can be written by a person or, far more often, generated by graphical computer-aided design (CAD) software and/or computer aided manufacturing (CAM) software.</p>	<p>Chief Patron Prof. S.N.
